## WORK EXPERIENCE

### SPEOS (Student)

Polyvalent Printing Operator

- Operated and maintained high-volume printing equipment, including Riso T2100, Xerox Nuvera, and Canon ColorStream 6000 (continuous feed).
- Collaborated with team members to meet tight deadlines in a fast-paced production environment.
- Ensured print quality, troubleshooting issues to minimize downtime and maintain production efficiency.

### SPEOS (interim)

Junior Developer / IT Assistant

- Contributed to the development of a Print Spool management program for internal automation.
- Participated in code versioning and build processes using Git and Jenkins
- Collaborated with QA and operations teams to troubleshoot print job errors and improve performance.
- Assisted in deployment and monitoring of test builds across environments.

### Okay Jette (Student)

Store Assistant

- Managed bread baking and ensured fresh stock availability throughout the day.
- Operated the cash register, handling transactions accurately and providing friendly customer service.
- Assisted customers with inquiries, product recommendations, and problem resolution to enhance their shopping experience.
- Worked efficiently as part of a team to maintain store operations and meet daily performance targets.

### Independent Computer Technician & Web Developer

Freelance (4 years, alongside studies)

- Built, upgraded, repaired, and optimized desktop systems for private and small business clients.
- Diagnosed hardware, software, and network issues (LAN/Wi-Fi, connectivity, basic security).
- Designed and developed websites for clients, handling structure, styling, and functionality.
- Managed clients independently: communication, scheduling, and technical follow-up.
